**Critical Infrastructure Protection Certificate Program**  
**Baton Rouge, La**

---

### **Infrastructure Protection Certificate Program**

The Infrastructure Protection Certificate Program will enrich your knowledge of and skills in critical infrastructure security and resilience. You will gain a broad understanding of homeland security infrastructure protection doctrine through an in-depth examination of key concepts and practices incapacibilities - based and community-focused planning, integrated risk management, private-public partnerships, and whole community resilience strategies.

Once all four courses have been completed, participants must complete the [Infrastructure Protection Certificate Request](#) and return the form to the TEEX Law Enforcement and Security Training division to receive their Certificate.

All courses must be TEEX courses taken within 5 years from the date of application.
